

91m² Mobile Units

13m x 7m

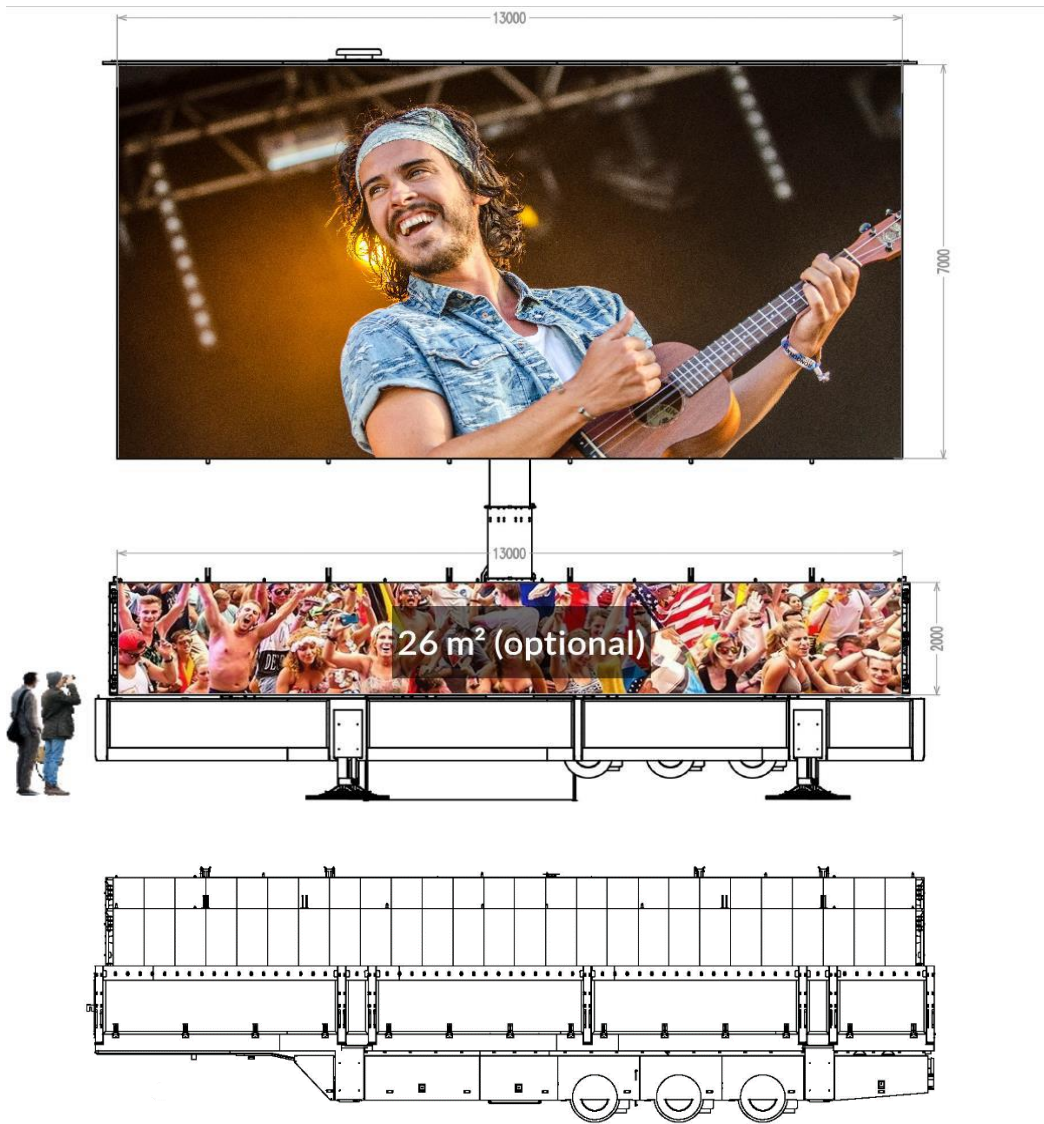

HD Ledshine offers a wide range of high quality outdoor mobile screens. As uniformity and design are two of our key values, all units have the same finished design, no trucks underneath, no big structures, no visible wheels or other equipment: only one support column in the middle and a clean base finished down to the very last detail. The 91sqm unit is a variation to the world record 144sqm units. Optionally there is 26m² underneath. This could be perfect for sponsorships or other special effects.
